

Introduction to Regional Profiles

While Vermont is a relatively small state with commonalities across communities, each region is unique. The following regional profiles offer a snapshot of selected indicators of child and family well-being for each of Vermont’s 12 regions. Each indicator includes the most high-quality, up-to-date data that is available at the regional level and includes the same data from five years prior for comparison.

Each Regional Council is addressing the early childhood workforce crisis with a regional focus based on the strengths and opportunities available as part of the Council Action Plan. Each profile outlines one way that the Regional Council is addressing these challenges and moving forward the **VECAP Goal 3: All Children and Families Have Access to High-Quality Opportunities That Meet Their Needs.**

For more information on the early childhood workforce crisis, see the Spotlight starting on page 10.

Please note that due to “test administration during 2020-2021 [being] impacted by several, novel variables”, proficiency in third grade reading assessments is not included for each School District/Supervisory Union.⁶⁷

Northern Windsor & Orange

The Northern Windsor and Orange Regional Council has identified early childhood workforce development as a priority. Recognizing that the early childhood workforce crisis is not isolated to the Northern Windsor and Orange region, the council has decided that strategically aligning with upper valley, statewide, and national efforts may be the best course of action while ensuring the efforts of the council and council network are regionally appropriate and meet the urgency of the moment. The first half of this year has been focused on gathering information from across sectors within and beyond the early childhood landscape. Experts attending council meetings to share current data, approaches, and opportunities for collaboration include representatives from The Department of Labor, Northern Lights at CCV (early childhood educator professional development), Health Care and Rehabilitation Services - HCRS (Regional Designated Mental Health Agency), and the Vermont Association for the Education of Young Children - VTAEYC. Based on this assessment of regional, statewide, and national strategies, the council will identify and execute the most aligned regional action to address the early childhood workforce crisis. This is just one way that the Northern Windsor and Orange Regional Council is moving forward **VECAP Goal 3: All Children and Families Have Access to High-Quality Opportunities That Meet Their Needs.**

ABOUT REGIONAL COUNCILS

Building Bright Futures’ Regional Councils bring together early childhood stakeholders to identify gaps; share expertise and resources to break down silos; elevate regional and family voice; and implement strategies to respond to the needs of each and every child and family in their respective area. Regional Council members are crucial to each stage of this process, both in official convenings of the Regional Councils, and within the early childhood system more broadly.

The 12 Regional Councils are mandated to support an integrated system of early care, health, and education at the local level under Vermont Statute Title 33 § Chapter 46. In alignment with, and with support from, the State Advisory Council, Regional councils are tasked with coordinating and implementing services in accordance with system and regional priorities. Regular Regional Council meetings are just one way that this mandate is fulfilled.

Statewide, nearly 250 people bring their perspectives together through Regional Councils on a monthly basis. Early childhood stakeholders across regional tables include professionals in physical and mental health, social services, basic needs, early childhood education, PreK-12 education, families of children under 9, and community members invested in the well-being of young children.

Each Regional Council has an action plan to guide decisions and activities. While each plan supports a local comprehensive early childhood system, two regional priorities are set by Regional Councils annually to share across the state. The map below presents the top two priorities of each region which showcases the strength of the regional council network in local priority setting, as well as the connections and variation between the 12 regions in Vermont.

More information about each region including monthly council meetings and updates can be found at buildingbrightfutures.org/what-we-do/regional-councils/
